The Honorable Dennis Ross, Chairman
House of Rep. Committee on Courts
4416 Florida National Dr.
Lakeland, FL 33813

Re: Enjoinder by Your refusal to hold Judges and the JQC accountable for committing criminal offenses and refusing to investigate them and hold judges accountable to Florida Felony Laws and Protect the US Citizens residing in Florida.

Dear Rep Ross:

Please forgive me for being remiss in Confirming and replying to your unlawful dismissal of my Constitutional complaint against the JQC for fraudulently dismissing my criminal complaint against judges, a copy of which stated dismissal and refusal to act in the interest of the people and the Constitution of the United States and Florida, is attached, less you conveniently forget. Your reckless disregard for the law and the constitution is clear.

Since my **fraudulent conviction** and particularly my **illegal and unconstitutional sentence** was proven to you by “proof positive” and “presumption great” from court records and you have refused to investigate or sanction the judges for their knowing and intentional criminal felony kidnapping and false imprisonment and conspiracy and obstruction of justice and violation of my civil rights under color of office, not law, and you stated: as chair of the committee, under “Rule 7.3 of the Rules of the Florida House of Representatives,” you have “all authority necessary to ensure the orderly operation of the council or committee, including...establishing each meeting agenda...” and you have refuse to place criminal charges and impeachment proceedings against these judicial officers, by Florida Statute, you are an “Accessory after the Fact” under Florida Statute 777.03 and a co-conspirator under Florida Statute 777.04 in these felonies and constitutional violations and have declared you authority, “as chair of the committee” to protect and commit these felonies, constitutional violations and civil rights violations against any body the state chooses which is tantamount to a declaration of war against eh citizens of the United States and the U.S. Constitution as “Chairman of the Committee.”

Your statement **clearly declares** you have the authority of the State of Florida to allow judges to commit crimes, disregard & violate the laws the **legislature enacts** and the House will not act to stop it, approving this proactive judicial encroachment on Separation of Powers.

Congratulations, hero. I now fully believe and expect you, as “Chairman of the Committee” will seek and authorize my execution to shut me up.

Sincerely,

Lawrence Benson
